## Investing in Your Home or Business

At Costa del Rey Surfacing, we know you've worked hard to earn the money that pays for your investments. Given this, you can be confident that we will take the utmost care to balance your project's needs with your budget. We have a variety of options for your project to allow you to make the best decision for your home or business.

We have seen how inferior waterproofing products and poor installation have caused water intrusion that resulted in extensive costs and frustration, in addition to mold and structure damage, devalued property and cumbersome litigation that could have easily been prevented.

We want you to know that with our services, your biggest investment will be well protected and personalized with care.

## Our Philosophy

Our name means "King's Coast" and we want to protect your Central Coast home or business with top-quality products, installation and service. We want you to understand the process and relax in the knowledge that your investment will enhance the beauty and longevity of your home or business.

Providing quality,  
integrity and peace  
of mind at a price  
you can afford

## Our Mission

Our mission is to provide top-quality waterproofing and decorative-concrete services while using top-quality products and emphasizing:

- A high level of integrity
- Meaningful relationships and education to our employees and customers
- Serving the needs of our community with God-given expertise and knowledge.

## How may we serve you?

The crews have been professional, efficient and pay attention to detail. I am pleased with the variety of water proofing services that Costa del Rey provides. When a contractor builds for a client it is critical that water proofing is done correctly, otherwise, all hard work is for naught. Later potential water damage can be catastrophic.

Phil Bauman  
General and Electrical Contractor

## Deck Waterproofing

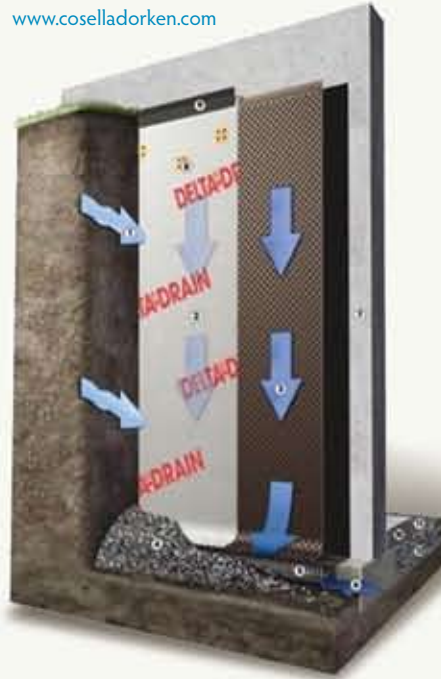

### Product Applications

Costa del Rey Surfacing uses an elastomeric (rubber-like) deck coating created for the wear, tear and extreme weather conditions of ski resorts. Not only is the product low maintenance and long lasting, but can be recoated after many years of wear to look like new at a fraction of the cost. Here is a partial list of applications including some notables:

- U.S. Navy ships
- Disneyland Matterhorn
- AT&T Park, home of the San Francisco Giants
- Equestrian surfaces, dog runs & zoos
- Locker rooms and exercise rooms
- Decks and flat roofs
- Shower pans and pond liners

## Below Grade Waterproofing

### Product Applications

To safeguard your foundation where a portion of your home is below grade level (or underground), or if you have a basement that you want to protect from groundwater and rain, Costa del Rey Surfacing has top-quality products that will direct water away from the building and integrate with your existing drainage system.

Whether you have a retaining wall that needs a little added protection or a wall of your home that needs complete shielding from water intrusion and moisture, we have the right product for you.

“We are so impressed with the quality of products that Costa del Rey uses. They are great to work with, and we know they will stand behind their work 100%.”

Joe & Denise Cannon  
Cannon Construction, Inc.

## Decorative Concrete

### Interior Applications

Our decorative concrete products are ideal for both residential and commercial applications, with uses for retail and industrial solutions, as well as another flooring option in your home or garage. Interior uses can include:

- Kitchen and bathroom floors
- Bars and restaurants
- Garages and showrooms
- Entryways and lobbies
- Warehouses and industrial floors
- Salons, coffee shops and other retail locations

“A contractor is not defined only by their workmanship and price. What truly defines a contractor is their integrity and their ability to handle difficult projects with determination and tenacity. Costa del Rey Surfacing has been exemplary and a joy to work with. I certainly recommend them to anyone needing decorative concrete or waterproofing.”

## Decorative Concrete

### Exterior Applications

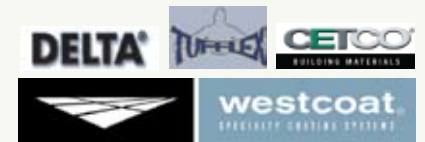

Whether you need a new finish on your driveway, a backyard upgrade, or more pizzazz for your home or business entryway, Costa del Rey Surfacing has a solution for you. Because of the many products we offer, we can work to find the right look for that suits your budget. Some exterior uses include, but are not limited to:

- Walkways and driveways
- Patios and courtyards
- Entryways
- Stairs and balconies
- Decks and pool decks
